EXCELLENCE IN THE SMALLEST DETAIL

Offering a coffee is a daily gesture. However, when this coffee is one of absolute perfection, it expresses all the consideration that you have for your customers and your employees. This daily gesture then carries a message: your company recognises quality.

THE RIGHT MACHINE IN THE RIGHT PLACE

Building on our success in the private sector, *Nespresso* also offers a system that meets the specific needs of its business customers. This system, based on innovative designs and high-tech machines, a selection of thirteen *Nespresso* coffees and tailor-made services, integrates perfectly into your business environment.

It allows offices, hotels, restaurants and shops to offer their customers, business associates and employees the best quality coffee whenever, wherever.

THE HIGHEST QUALITY COFFEE

An exceptional coffee for all your business needs. Nespresso offers a rich selection of Nespresso coffees specially created for the business environment and guarantees a perfect coffee to even the most demanding of connoisseurs, cup after cup.

NESPRESSO AAA SUSTAINABLE QUALITY™ PROGRAM

Combining Nespresso coffee and quality expertise with the Rainforest Alliance's know-how and standards in sustainability and best farming practices, the Nespresso AAA Sustainable Quality™ Program was launched in 2003. The mission of the AAA Program is to protect the future of the highest quality coffees required for Nespresso coffees and secure the livelihood of the farmers that grow them while protecting the environment.

The AAA Program is integrating coffee quality and environmental practices as well as farm management to improve long-term social and economic positive impacts. It is based on premium, technical assistance and co-development on infrastructure for farmers. The program is also unique in the enduring, direct relationships that we build with farmers, working together with them and agronomists on growing coffees with consistent high quality and aromatic profile year after year.

THE POSITIVE CUP: OUR APPROACH TO SUSTAINABILITY

At Nespresso, we believe that each cup of coffee can not only deliver a moment of pleasure, but also restore, replenish and revive environmental resources and communities. As a company, sustainability is our way of doing business and is at the heart of everything we do.

Through our sustainability strategy **The Positive Cup**, we are aiming to reach our 2020 goal of making every cup of Nespresso a positive cup. To realise this vision, Nespresso has set itself ambitious commitments:

Coffee: 100% coffee sustainably sourced

Capsules: 100% responsibly managed aluminium

Climate: 100% Carbon efficient operations
