COFFEE CAN BE A FORCE FOR GOOD.

FROM CHERRY TO CUP - AND BEYOND.

Our vision is to create a cup of coffee that has a positive impact on the world. The **Nespresso** AAA Sustainable Quality™ Program is our solution for ensuring sustainable agricultural practice and for building resilience. The AAA Program combines **Nespresso**'s coffee and quality expertise with the Rainforest Alliance's know-how in sustainability and best farming practices. It empowers coffee farmers by investing in community infrastructures, paying premiums for superior coffee and the best agricultural practices. Today, more than 120'000 farmers in 15 countries are part of the AAA Program.

"The big challenge going forward is to engage consumers with the benefit of sustainable production."

Niel Sizer, President, Rainforest Alliance.

EVERY CAPSULE THAT WE COLLECT IS RECYCLED, AND IS GIVEN A SECOND LIFE TO CREATE NEW OBJECTS - LIKE THIS FIXPENCIL.
